## WORK EXPERIENCE

### Avaanegar Messenger

Graphics and Character Designer

This place (a failed start-up , sadly) was the first real place I ever worked at. There was a friendly atmosphere, a coffee maker, a white board, a ps4 and some work to do. Developers were working on a chat client and a game, and I made the graphic requirements of them both.

### Miare

(Graphic) Visual Designer, Marketing Agent

Miare is a company that works in the field of logistics and was founded in May 2016. The first Logo and business cards of Miare were designed by me. Later in 2016 I started working full-time in this company. Since then, I've been doing lots of things here: designing brochures and flyers, icons, graphical content, sometimes writing the needed contents, designing gifts for the staff, doing some photography when needed and administrating the social media (Telegram Channel)

## EDUCATION

### Soore Art University

B.A in Painting

I used to be a student of Software Engineering in Qazvin University, and I changed my major in the middle of school year. I started my education in Painting at Soore University after taking some exams, I'm not proud to say this but I won't be able to finish my studies on time, cause I have been working full-time this whole time and I had to skip some classes, but it's gonna be Okay I guess!

**Rahnema College**

It was a 6 weeks long course about UI/UX Design, all that was there to be done, all the roles and steps. We had classes and workshops in which they divided us into 4 groups with 4 different projects and we had to learn to cooperate and work hard in a very short time. It was literally the best 6 weeks of my life.
